

## **Cities bring about change to replace plywood boarding with SecureView**

**Cities and towns small and large are recognizing that the use of plywood to board vacant and abandoned properties needs to be a thing of the past.**

**Waterford, CA has now joined the growing list of cities who have taken steps to bring about change by passing ordinances in their communities that will require the use of polycarbonate versus plywood. Other cities include Phoenix, AZ, Fresno, CA and Del City, OK.**

**Community Blight Solutions™ and SecureView™ will continue their work to educate other cities throughout the US. We are dedicated to working with our local communities, cities, mortgage servicers and mortgage industry leaders to bring about change.**

**If your city or community would like to learn more I encourage you to contact us today.**
